August 18, 2004

Dear Chris,

After reviewing the Emergency First Response curriculum for CPR we have accepted the coursework as a suitable certification for AFAA instructors. The CPR course has been filed for acceptance for those individuals who have completed the written and practical portions of the testing at a site location. Once the workshop has been completed by the individual and proof of current CPR is obtained, we will accept the card as a valid card for recertification purposes.

Thank you for the efforts you have put forth in getting this coursework approved.

Sincerely,

Kurt Murray
Director of Continuing Education and TeleFitness Services
