National Oceanic and Atmospheric Administration (NOAA)

Recognizes Emergency First Response

Emergency First Response Receives Prestigious Recognition from NOAA

June 20, 2005. Rancho Santa Margarita, California -- Emergency First Response announced today that it has attained another prestigious recognition of its Primary Care (CPR) and Secondary Care (First Aid) training courses. This recognition comes from the United States National Oceanic and Atmospheric Administration (NOAA), an agency of the US Department of Commerce, and underscores Emergency First Response's continued growth as a CPR/First Aid Training Organization.

“United States National Oceanic and Atmospheric Administration (NOAA) has evaluated the Emergency First Response program and has determined that it meets or exceeds the NOAA standards for training in the area of CPR and Basic First Aid as required by NOAA regulations

(NAO-209-123 Section 5.03.k),” says Chris Robinson, Director of Training and Industry Relations for Emergency First Response. “This means that the Emergency First Response training for CPR and First Aid will be accepted by the NOAA Diving Program for any and all divers.”

For further information, call 800 337 1864 or +1 949 766 4261, or visit the company online at www.emergencyfirstresponse.com.

About NOAA

The National Oceanic and Atmospheric Administration, an agency of the U.S. Commerce Department, is dedicated to enhancing economic security and national safety through providing environmental stewardship of the nation’s coastal and marine resources. The NOAA Diving Program trains and certifies scientists, engineers and technicians to perform the variety of tasks carried out underwater to support NOAA's mission.

About Emergency First Response

Emergency First Response (EFR) is the fastest-growing international CPR, Automated External Defibrillator (AED) and First Aid training company. Dedicated to training the lay rescuer, Emergency First Response courses encompass adult, child and infant CPR and first aid skills, and incorporate Automatic External Defibrillator (AED) training and emergency oxygen use. Emergency First Response also offers comprehensive First Aid at Work courses, specifically designed to meet compliance standards for workplace safety courses internationally. Emergency

First Response courses are flexible in design to accommodate scheduling and training needs. They can be taught together or alone in any combination. The company's award-winning courses, state-of-the-art training materials, and multi-media approach to training build confidence in lay rescuers and increase their willingness to respond when faced with a medical emergency. Reach Emergency First Response at 800 337 1864 extension 2423 or + 1 949 766 4261 extension 2423, or visit online at www.emergencyfirstresponse.com.
