

Mr. Chris Robinson
Director, Training and Industry Relations
Emergency First Responder Corporation
30151 Tomas St.
Rancho Santa Margarita CA 92688-2125

May 12, 2004

Dear Mr. Robinson,

Thank you for providing training information on the Emergency First Responder, EFR course certifications. The certification includes but may not be limited to CPR, First Aid and AED. The course has the welcome addition of infant, child and adult and allows us the flexibility to tailor the course to our audience for maximum effect.

After careful review by our coaching staff we have determined that the EFR program meets or exceeds those offered by American Heart and Red Cross for our purposes.

We are please to advise that EFR is now accepted by United States Association of Blind Athletes to meet any CPR/First Aid requirement that we may have. We intend to offer the course at our Coach Training Camp held in Colorado Springs this July.

We are looking forward to using this course and certification to increase awareness and education of our coaches.

Sincerely,

Mark Lucas, Executive Director
